

WATCH CAR BEHIND

Danger From That Source Should Always Be Kept in Mind by Auto Drivers.

PAYS TO BE ON SAFE SIDE

Mistake to Wait Until the Last Moment Before Signaling That You Are About to Make a Turn —For Headlight Protection.

Skidding is only one of the dangers that the taxi pilot has to guard against. Getting around corners with a neat sweep that the touring car driver finds it difficult to imitate is one of his specialties, but he takes care that it doesn't lead to that worst form of all collisions, the broadside on. He keeps his weather eye on one of those little mirrors fastened to the side of the dash, or the windshield when there is one. Since the taxi driver is not a fairweather bird, protection in this form is usually lacking, as even a slight bump is fatal to plate glass. He can see what is ahead of him, but more important than that, what is behind him. A corner is never taken without the warning hand being stuck out at one side. Its sudden appearance is often apt to be disconcerting to the driver behind, but the signal is rarely lacking and avoids many a crash.

There's a lesson in this that the motorist who drives his own car will do well to profit by. Getting around in the crowded streets is nerve-racking work at best, for one not accustomed to it; but it can be made much easier by observing the ways of the taxi pilot and profiting by those that are good—many of his habits would not be safe to follow. If tempted to emulate all of them, bear in mind that he has a very short wheelbase machine designed to take sharp turns

and built to take knocks. Keep your eye on the man behind. He represents a far more serious danger to you than all of the traffic in front. Watch his movements in the little mirror at the same time that you keep a sharp lookout for emergencies ahead of you. Every time you have to slow down or intend to take a turn, stick your hand out at right angles, and do it first. Don't wait until after you have applied the brakes. He may not be able to stop quickly enough; and while his lamps will suffer, the damage to the back of your own car will be greater. For protecting your own headlights, one of the spring bumpers is a good investment. It pays to be on the safe side.—Exchange.

Health a Factor in Success.

The largest factor contributing to a man's success is undoubtedly health. It has been observed that a man is seldom sick when his bowels are regular—he is never well when they are constipated. For constipation you will find nothing quite so good as Chamberlain's Tablets. They not only move the bowels but improve the appetite and strengthen the digestion. They are sold by All Dealers.

WILL OPEN UP FARM LAND

Important Part Which the Motor Truck Seems Destined to Play in the Near Future.

The motor truck seems destined to play a tremendously important part in the development of the American farm. "The motor truck will have a great influence in opening up farm land which has hitherto been inaccessible because of its distance from any kind of transportation," said a prominent farmer recently. "There are millions of acres of good farming land in various parts of the country which are lying idle because they are too far away from transportation."

"A one-ton truck can cover from 12 to 15 miles an hour, carrying capacity loads over ordinary country roads. A team with a heavy load is limited to about six miles an hour or even less. On the whole, a motor truck will cut the time required to carry produce to market to about one-third of what it is with horse drawn vehicles."

"No one but a farmer who is compelled to make a 20-mile haul to market can appreciate what this means. It will give the farmer far more time to spend on his farm, and will effect numerous savings in other ways. The next 20 years will bring about a wonderful development in agriculture, and the motor truck will be responsible for a large share of this advance."

A Texas Wonder

The Texas Wonder cures kidney and bladder troubles, removing gravel, cures diabetes, weak and lame backs, rheumatism, and all irregularities of the kidneys and bladder in both men and women. Regulates bladder troubles in children. If not sold by your druggist will be sent by mail on receipt of \$1. One small bottle is two months' treatment and seldom fails to perfect a cure. Dr. E. W. Hall, 2926 Olive street, St. Louis, Mo. Send for Kentucky testimonials. Sold by druggists.—Advertisement.

Thought It Was Alive.

Gilbert Parker, the English author, says Hearst's Magazine, tells of an English gentleman who recently came to this country to visit some friends in California. "In common with most travelers, he supposed game was plentiful everywhere in that state, so he carried with him the necessary guns and ammunition."

As his train neared San Bernardino—just before making the mountain climb—there was a delay. Several hours passed, and still the train remained stationary; our traveler friend grew restive, and sought the porter of the Pullman car to ascertain the cause of the delay.

"It seems that in mounting the grade a freight train had broken apart, the rear portion having descended the grade and blocked the track. The porter informed him of the accident to the freight train, and said, 'There is a caboose on the track.'"

"Immediately the 'hunter' instinct was awakened; hastened to his berth, he procured his gun and started for the door, saying:

"Show it to me! Show it to me!"

Scored Cylinder.

Of course a badly scored cylinder wall is about the most serious form of mishap that comes to the motorist, and a new cylinder or reboring is the usual cure. It should be remembered, however, that a scored cylinder wall can sometimes be satisfactorily repaired by running some metal into the groove by the oxy-acetylene method, which various concerns make a specialty of doing. This method of handling the matter sometimes means a considerable saving in expense and saves a possible weakening of the cylinder, as it merely requires grinding out.—Motor.

Wounded Pride.

"I have hundreds of thousands of dollars invested in my musical productions," said the sensitive manager.

"Surely the public appreciates your generosity."

"No, it doesn't. The public would rather watch a comedian when he comes out and tells a fool joke than look at my beautiful scenery and costumes."

The Baking Powder Question Solved

—solved once for all by Calumet. In use in millions of kitchens has Calumet is highest not only in leavening power, but well-acting in results—pure to the extreme—and wonderfully economical in use. Ask your dealer. And try Calumet next bake day.

RECEIVED HIGHEST AWARDS

You don't save money when you buy cheap or big-can baking powder. Don't be misled. Buy Calumet. It's more economical—more wholesome—gives best results. Calumet is far superior to other milk and soda.

FARM WORK DONE AT NIGHT

Misses Austin, Once of New York, Live in Castle of Mystery in State of Maine.

Misses Veva and Alta Austin, daughters of Thomas D. Austin, formerly of Fifth avenue, New York, have upset all the traditions about farming, so far as concerns getting up early in the morning to do the work, says the Franklin Road (Me.) Dispatch.

Instead of arising with the sun, as has been the custom of tillers of the soil for generations, they do not start the work on their estate, Cuniculons park, until sundown. It is then they feed their stock, and neighbors have been astounded to hear the hens cackling in the middle of the night, announcing the coming into the world of another egg. The cattle are all fed at night.

Mr. Austin, who is up and about part of the day, retires early in the afternoon, and arises for a midnight meal of honey, crackers and milk. At this meal discussions are held of literature and art.

Practically the only intercourse the family has with the outside world is through books and phonographic records. The daughters, though they have never been to school, are academically proficient, are practical farmers, expert mechanics, linguists and lovers of music. They are familiar with all the operas through hearing the most famous singers on phonographic records.

At present the family is living in the basement of an old farm building, pending the completion of their \$100,000 "castle of mystery." The "castle" is of stone and wood, and at present has only one habitable room. This is the girls' study, and is at the topmost point of the tower.

Mr. Austin is now in New York settling the estate of his wife, who died recently.

When the Austins lived in Fifth avenue they moved in the best social circles. Mr. Austin was a manufacturing jeweler and very wealthy.

BARREN LAND IN AUSTRALIA

In Northern Districts There Are 125 Square Miles to Each Person, Relates a Traveler.

Prof. Baldwin Spencer, who holds the chair of biology in the University of Melbourne, returned lately from travels in North Australia, and what most struck him was "the extraordinary emptiness and loneliness of that great land."

In more than one-half million square miles there are but four thousand white people, which allows 125 square miles for each. But only twenty-five hundred miles away, four days' sail or so, is Japan, with forty million people. It is a fact, he says, calculated "to make Australians think about the possibilities of the future."

And it is this, of course, which leads Australia to object to the proposal to make Gibraltar the base of its imperial fleet. That would be nice for England, which has weakened its Mediterranean force, but from Gibraltar to Melbourne is nearly nine thousand miles. Nor does it suffice to say that no European navy is nearer; as one Australian lately put it, "We are not afraid of any European navy."—Springfield (Mass.) Republican.

Faced the Flood With a Prayer.

A West side woman who was alone in her home when the flood came was charitable enough to admit to the house a strange man who was vainly striving to reach his own home and rescue his family. When she did not think of the flood she was apprehensive of the man. It was an unusual situation, as the common danger drove them closer together and to the second story. When death seemed certain she wrote a farewell note and pinned it high on the wall. The man, too, was impressed. Together they recited the Twenty-third Psalm and then he made a prayer. "I was so relieved when I found that he was a Christian," she said, "and it certainly was a beautiful prayer." Whether or not it was his prayer that checked the flood, the water began to subside and the two were in time permitted to escape.—Columbus Dispatch.

PERFECTION

SELF RAISING FLOUR

is made from choice winter wheat with leavening which is pure and wholesome. A strictly phosphate leavening is used and the residue left in the bread by baking is phosphate of soda and phosphate of calcium—salts of unquestioned dietetic value.

ACCURACY, RELIABILITY AND UNIFORMITY are the only words that describe the baking matter when Perfection Self Raising Flour is used. Scientifically and accurately mixed by our specially designed machines, guarantee every pound of PERFECTION to have the proper ingredients. Give it a trial.
